- 25X1X 1. Between 1 and 4 p.m. on 1 December 1951, more than 100 single-engine ground attack aircraft were parked at Doeberitz airfield. The white numbers 38, 40 and 41 were identified on three aircraft which were on the northern edge of the field. There was no flying. 25X1  
25X1 barracks buildings north of Hamburger Chaussee which were occupied by air force troops.

- 25X1X 3. Between 9 a.m. and 1:30 p.m. on 13 December, about 80 single-engine low-wing monoplanes with in-line engines were parked on the northern edge of the field. An additional 25 to 30 planes of the same type were parked in four groups in front of a hangar on the southern edge. Two planes with the white numbers 26 and 27 and a red stripe on their rudder assemblies circled over the field. A braced radio mast was located near the flight control building. Another radio installation with one mast was seen near the railroad line west of the field.

- 25X1X 4. Between 9:30 a.m. and 1 p.m. on 2 December, about 50 single-engine low-wing monoplanes were parked in two rows on the northern edge of the field and about 50 planes of an undetermined type in the southwestern section. A radio truck and a radio mast about 10 meters high were in the southwestern corner of the installation. Six fuel containers, each the size of a railroad tank car, were observed on the western edge of the field. There was no flying.
5. Between noon and 1 p.m. on 9 December, 46 single-engine planes were parked in two rows on the northern edge of the field. Eight single-engine aircraft of a larger type were observed in front of the hangars on the southern edge. There was no flying although the weather was favorable. Of the radio installation previously observed in the southwestern corner only the radio mast was still there. A radio installation with four masts was located west of the road to Priort. Several small and guarded temporary buildings, in which ammunition was apparently stored, were observed in a small wooded area northwest of the field. \*
